

INDUSTRY NOT BOTHERED BY POLITICAL TURMOIL

Conditions Prosperous in Spite of Presidential Year

STEEL TRADE ACTIVE

Vast Improvements Being Made at Braddock, Midland and Monessen

Political turmoil over the country probably will have less effect upon the industrial conditions this year than at any previous presidential election in years. Indications are that instead of disturbed and panicky industrial conditions, the country will experience a period of prosperity better than it has known the last year. One index of this is in the steel trade, where even vacations are being curtailed in order to keep the mills running to their fullest capacity. Improvements are under way by steel companies that mean not only enlarged operations of a permanent character but the immediate spending of millions of dollars. The work on the Edgar Thomson works of the Carnegie Steel company, at Braddock, now under way, will mean the expenditure of approximately \$8,000,000, while the Midland plant of the Pittsburgh Crucible Steel company is being enlarged by the expenditure of between \$6,000,000 and \$7,000,000.

In the latter instance the improvements will necessitate the building of between 400 and 500 houses for immediate use to provide accommodations for the new employees of this plant. It is intended to make a model industrial city similar to Woodlawn and Gary.

While the improvements are under way at Braddock and Midland, vast improvements are also being made at Monessen by the Pittsburgh Steel company. Two modern blast furnaces are being built together with billet and blooming mills. In these improvements the Pittsburgh Steel company is spending approximately \$5,000,000 and when completed they will give employment, it is estimated to about 2,500 more men.

Mines are running in good shape along the Monongahela valley, and the fact that July was the best month for over a year in river coal shipments alone is evidence of the prosperous conditions. The summer is usually slow in the coal trade but this year it is different. The hardest thing is to get sufficient labor to man the mills and factories. Many foreign laborers took trips abroad at the beginning of spring, and refuse to return until after the presidential election, and as they state, until "things have settled down."

Take Food; Leave Money.

Thieves entered the home of Mrs. Berthet a widow at Allentown Thursday night. They contented themselves with securing all the food they could and left, without apparently trying to secure any money.

The most popular of the 77 courses offered are those in Home Economics, Manual Training and Elementary Agriculture. The following are registered from Washington county: Fannie Arrison, Charleroi; Janet Clark, Washington; Adeline Mollenaur, Eighty Four; Rosetta Rodgers, Charleroi; Muriel Scott, Charleroi.

INSPECT GROUNDS OF PLAY

Beaver Delegation Visits Charleroi to See Innovation

RETURN MUCH PLEASED

That the news of the success of Charleroi's playgrounds has carried far was evidenced Friday when a committee of three of the business men of Beaver Falls came here to inspect the playgrounds. In the party were William Boyle Thomas Kirk and a Mr. Reed, who is one of the most prominent bankers and business men of Beaver county. The committee has been visiting other playgrounds over the country, including those at Pittsburgh. They were much pleased with the conduct of the Charleroi grounds. They were showed about by J. B. Schafer, who is president of the Charleroi Business Men's Association, and one of the leading civic workers and by William Kirk, one of the prominent workers in the playgrounds movement.

AEROPLANE FLIGHTS TO BE BIG FEATURE OF OLD HOME WEEK

Uniontown is to hold an old home week the latter part of August and as one of the chief features will have an aeroplane exhibition. Negotiations have been concluded with the Curtis Exhibition company of New York for flights on three days during the week. Glenn Curtiss is the head of the company which will supply the air craft and send the air men.

Mr. and Mrs. Neri Newcomb have gone to Creighton to visit.

COL. NEWCOMER IS GIVEN PROMOTION

Popular Head of Government Engineers in Pittsburgh District Transferred to the National Capital

Col. H. C. Newcomer, head of the government engineers of the Pittsburgh district has received word of his transfer to Washington, D. C. It is a good transfer for Col. Newcomer.

Col. Newcomer becomes one of the five members of the board of engineers for rivers and harbors and also restrains his command of the central department, which includes the Ohio and its tributaries.

He has been in charge of the engineers in the Pittsburgh district for the past five years. During that time

STEPHENSON NOW DISTRICT AUDITOR

Charleroi Man Wins Noteworthy Honors in Miners Organization

IS ALSO AN EXAMINER

John Stephenson of Charleroi, who was appointed by the State Department of Mines at Harrisburg as a member of the examining board for mine foremen's and fire boss' certificates of this district, has just been appointed a district auditor by the international board of United Mine Workers. His duties will be to visit the various locals of the district and audit their accounts. Mr. Stephenson is one of the veteran miners of the valley. In 1880 he joined the Knights of Labor at Shire Oaks and has been actively identified with the miners' organization ever since. He has spent 50 years of his life in the mines, and is widely known in the district, where he is deservedly popular among his associates. He is receiving congratulations over his last appointment.

HORSE WILLING TO MISS GOOD FEED JUST TO GET HOME

Apparently willing to miss a good feed in order to get home, a horse, which was being cared for at one of the borough feeding grounds by Misses Anna Bell Carson and Atha Carson, broke away today while the former was getting the halter fastened and with the buggy jolting along behind dashed out the street toward the garbage furnace. Near the garbage furnace the horse was caught. It was returned through the help of a couple of men who gave chase in an automobile. Miss Anna Bell Carson in trying to hold the animal narrowly escaped injury being thrown viciously aside.

CHARLEROI GIRL BECOMES BRIDE OF MONESSEN MAN

Miss Margaret Mallabone, the daughter of Mr. and Mrs. John Mallabone of Fallowfield avenue and Seventh street and Jesse Herbert Miller of Monessen were married on Tuesday of this week at Cumberland, Md. They arrived home on Wednesday and for the present are living at the Grand Hotel, Monessen. They will take up housekeeping shortly at Monessen, where the groom is employed by his father of the firm of Miller and Luce.

Mr. and Mrs. Geo. Anderson of Belle Vernon are visiting the former's parents, Mr. and Mrs. J. F. Anderson of Crest avenue.

BROWNLEE IN CHARGE OF ROADS

County Man Supervisor for State Highway Department

HAS BIG TERRITORY

N. O. Brownlee, of Washington, superintendent of District 14 of the State Highway department, which includes Washington county, has gone over all state roads in his district and has completed all preliminary work incident to the care of the highways. Eight sections of road in Washington county have been taken in charge by the Highway department, making a total of 146 miles. Mr. Brownlee has divided the roadway over which he has charge into sections of about six miles each, placing a competent assistant in charge of each. He has completed his report, which was handed to O. K. Taylor, district superintendent, who in turn forwards the same to the department at Harrisburg.

The roads taken in charge by the highway department in Washington county are as follows:

- 1—Washington via. West Middletown to West Virginia state line at Independence.
- 2—Washington via. Gretna, Burgettstown, Florence, to point on Beaver county line.
- 3—From a point on the Washington-Beaver county line near North Star, across Robinson and Hanover townships to West Virginia state line.
- 4—From Washington via. Hill church, Canonsburg and Morgantown, following the old Pittsburgh pike to Allegheny county line.
- 5—Washington via. Williamsport pike to Monongahela.
- 6—From a point on the Williamsport pike near the Davis farm, east of Washington, via. Zediker, etc., to Charleroi.

Playgrounds Event Arranged for Fourth to Be Carried Out

AN "OLD HOME DAY"

Former Borough Officials and Civic Workers Tendered Special Invitations

Arrangements are being made for a celebration at the playgrounds on Thursday, July 18, to take the place of the Fourth of July celebration that was spoiled by rain.

The celebration will be in the nature of an observance of the Twentieth anniversary of the incorporation of Charleroi borough.

All the events of the celebration will take place at the playgrounds in "The Pines." Primarily it will be a lawn fete, and from the elaborate preparations being made it will be a good one. A committee of women will serve refreshments. The celebration will last from 6 until 11 o'clock in the evening.

The Charleroi Concert band, reorganized, and amplified for the occasion will give a band concert from 6:30 until 8 o'clock. Following the concert there will be speaking to take place at the speaker's stand. O. Frye will be chairman of the meeting.

Speakers will be the same as the day to have spoken on the Fourth of July. The day will be in the nature of an Old Home Day, and former borough, school and civic officials and former citizens have been tendered a special invitation to be present. The speakers programmed are: J. J. Hott, on behalf of the burgesses; Robert J. Whitehead, on behalf of school directors; Dr. J. W. Manon, on behalf of the fire department; J. D. Berryman on behalf of the playgrounds auxiliary; Jesse K. Johnston on behalf of council; Dr. Edwin McKoy on behalf of the Board of Health; W. C. Clark of the Business Men's Association. Rev. B. N. Axmacher, Rev. T. Hackett and Rev. J. E. Charles will make addresses.

WHY THE SUMMER COAT?

Why is a man's coat, in summer time? asks the Birmingham News.

Unless he has more than he can carry in his trousers' pockets, it is of absolutely no service to him save in the observance of a custom, or conventionalality. If it were but customary to go without coats in summer a man's costume would be absolutely complete when he appeared in shirt, trousers and shoes. As it is, however, he dare not go into a first-class hotel and attempt to sit at a dinner table in that condition. And this is well enough so long as coats are a part of a man's attire.

The argument herein, however, is to do away with them in the summer months. Why is that not possible by concerted action? Does woman ask man if she may poke her shirtwaist full of large holes?

A man's coat is a conventionality. In winter it may be a necessity, as is an overcoat and other apparel, but when the summer sunbeams are reminding a proud stiff collar that it may yet be a dish-rag one of these days, a coat is a burden to male humanity. The shirtwaist campaign has been started before and did not get very far advanced. But why call it a shirtwaist campaign. If a spade should remain a spade under any and all conditions, then a shirt should remain a shirt for the same reason. The character or kind of shirt, is a smaller matter, relatively speaking—the principal, crying need is the elimination of the coat in summer time.

The average man is dressed as warmly in July as the average woman in the coldest winter month. No man chooses to wear a coat. His shirt may compel him to do so today, but if the coat costume were abolished he would take care of the shirt feature on all occasions.

This is a most important position,

and will be the means of saving thousands of dollars annually if the caretakers perform their duty, as it is assumed they will. Had this been done on the ordinary dirt country roads thousands of dollars could have been saved the local taxpayers annually, besides preserving the roads by not permitting them to be destroyed each season. A man with a hoe patrolling the hill roads in the spring and fall could divert the streams of water which start courses down the center of roads and soon wash them out entirely, open up drains and perform service of inestimable value to the roads. Stones and other obstructions could be removed by the caretaker who could also fill up minor depressions and earn his pay many times over in the public service he might perform.

The caretaker for the road is one of the solutions of good roads. It has been the lack of the caretaker which has given this country the worst roads of any civilized country in the world.

PICKED UP IN PASSING

"Lancaster is a good city," said I. P. Hepler, a former Charleroi real estate man who is now engaged in the same business in the eastern city mentioned. "It is the type of a community that is most prosperous on the fact that it does not depend upon any single industry. Surrounded by a rich and prosperous farming country, it has hundreds of small industries employing from half a dozen working people to several hundred. Some of these may be closed during the year, but you never hear about it. The most of them are running, however, all the year around, and Lancaster is always pretty fully employed."

"One of the peculiarities about the city is that the hundreds of small industries that make the city prosperous are right in the heart of the town and not on the outskirts like a steel plant or a glass factory. Right in the middle of business block you'll find perhaps a four or six story modern building, which is perhaps an umbrella factory, and in the residence district the small concerns scattered about just the same."

"The tobacco business is a great industry in Lancaster. Thousands of men, women, boys and girls are employed in preparing tobacco for manufacture, and in making cigars and other products. An enormous amount of tobacco is raised in that commu-

Found Name Plate on Turtle.

Arthur Kinder, who is employed on the S. H. Hazelett farm at Bradock station, along the W. & W. railroad, found a turtle which measured five inches across the shell. A copper plate was riveted on the shell bearing the following name and date: "J. Wyland, July 1, 1902." There is no one by this name living at Bradock at the present time. The turtle

ity, and tons and tons of it is shipped in from other states to be cured and manufactured. Farming is good, but I consider the farmers a trifle behind in methods. They have lots of money and are prosperous, but taking them as a whole they are not realizing out of their farms what they should.

"I was engaged in farming near the city suburbs for awhile, but I had a chance to sell and clean up \$4,000 on my investment, and I sold out and went into the real estate business in the city."

"I don't see why boys need to be so bashful," said a 17-year-old miss, who lives on one of the residence streets of Charleroi, speaking confidentially to a friend the other day. "Now I know a nice boy about my own age, who lives a few doors from us, whose company I'd very much like to enjoy at times, but he's so retiring that all he'll do is to speak to me when we meet. Now I'm not in love with him, and I don't want him to be in love with me, but as I have no brothers or sisters, and he has none either, I can't see why we couldn't be neighborly, and enjoy one another's society. I know he is a nice boy and I don't think that I'm wholly unattractive. I sit alone evening after evening in our porch swing, and often see him sitting alone on his porch, but he's just too bashful to be friendly."

"No, I'm not looking for a beau, as you call it. There's lots of older fellows who'd come around all right if I'd let them, but I just want a boy friend I can meet and talk to as I would a brother. If boys would only be natural and not try to be smart like the older ones, I'd like them a whole lot better."

Brains and Hair.

A very momentous question has arisen: Does a woman's hair reduce her brain power? Experts are busy disagreeing on the point, which is, of course, the particular function of experts. The principal of a girls' school says that in every case where the younger girls have had their hair cut short their brains have been rendered more capable of sustained effort. A doctor and a schoolmaster, however, scout the idea, perhaps because they have never had upon the tops of their heads a heat generating mass of hair, intersected with metal instruments and shell combs. Every woman knows the hot throbbing, distinct from headache, which goes on under the mass of her hair, wherever it is placed, while schoolgirls have either a heavy plait, involving some strain from the top of the scalp, or a wide spreading mass of hair, which is equally hot. We may yet come to a day when small girls will have short hair, just as they wear knickerbocker suits to play in.

Must Do Without Almanac.

It looks as if the Chinese public in the south will be in a fix this year for the want of the usual almanac, which is an indispensable requisite in every household in order to distinguish between lucky and unlucky days and the like. The little books are sold by the hundreds of thousands and the trade got then, ready as usual. To meet the situation new covers were put on with the new dates, while the inside remained the same as if there had been no change. The sale of these is strictly interdicted and nothing has been provided to take their place.—Pekin Daily News.

FIRSTS GRAB GOOD HOLD ON THE LEAD

GOOD GAMES IN PROSPECT NEXT WEEK

The first and second position teams in the Charleroi Church league standing, and the two teams that seem to be playing the best ball will get together on Monday under regular schedule. These teams will be the First Presbyterians and the Catholics. The chances are that Patrick will pitch for the Catholics. Osborne, who has done much towards holding the heads of the Presbyterians above sea level this season will be on the mound opposing Patrick if the dope holds.

Tuesday the Episcopal and Methodist will have a set-to and on Wednesday the Lutherans and Episcopalists will try conclusions. The Washington Avenue Presbyterians and Baptists are scheduled for Thursday night, and on Friday night the Lutherans and Christians are to play. There should be some good games in the Church League this week, but undoubtedly the featuring attraction will be that of Monday night.

A. M. E. PEOPLE TO HOLD A UNION PICNIC AT ELDORA

Arrangements are being made by A. M. E. Sunday Schools of the Monongahela valley for their second annual Sunday school picnic to be held at Eldora Park on Friday, July 26. Sunday schools that will be included in the affair will be Charleroi, Brownsville, Belle Vernon, Pleasant Green, Monessen, Donora, Monongahela, Elizabeth, West Elizabeth and Clairton. Bands will be present to furnish music for the occasion. Two addresses will be made, one by Rev. H. H. Butler, D. D. of Washington, and another by Rev. P. A. Scott, D. D. of Pittsburgh.

SURPRISE PARTY FOR YOUNG COUPLE

A surprise party was tendered Mr. and Mrs. H. J. Gehring of 610 Fifth street by the Fancy Work Club of Christ Lutheran church in honor of their first wedding anniversary. An enjoyable repast was served and numerous games indulged in. Those present were Mrs. J. K. Johnston, Mr. and Mrs. Albert Huepel, Mrs. D. F. Worthington, Mrs. Edward Shultz, Mrs. R. O. Vetter, Misses Rosa Vetter, Edna Acker, Ruth Heupel, Bertha Anthony, Agnes Allen. The out-of-town guests were: Mrs. Small of Harrisburg and Mrs. Glancy of Roscoe.

SIGNIFICANCE OF SOUTH POLE

Science Will Welcome the Discovery So Long Looked Forward To.

At least three branches of science, it is hoped, will derive important benefits from the conquest of the south pole—meteorology, geography, and seismography. More immediately important than any other result is to be, it is probable, the influence of the discovery on meteorology. In no long time, as a consequence of the weather maps based upon the fuller knowledge of atmospheric currents in the Antarctic, doubtless brought by Scott and Amundsen, the prediction of the weather will be made a much more exact science. One of the results hoped for is the forecasting of the conditions of the monsoons in India and averting thereby a vast amount of damage to property and loss of life.

To work out the many observations pertaining not only to meteorology but to the other sciences and to report on the collections in detail must, as a writer in the London Times points out, be the work of years. It is already possible, however, to conjecture from the mass of expert information published here and abroad regarding Amundsen as well as Scott what are the outlines of a great section of the globe of which only the fringe has heretofore been touched by the explorer.—Current Literature.

Fire Engines Long Known.

It isn't worth while inquiring into the origin of the first engine built for a fire extinguisher. There were devices for this purpose before the Americans were heard of. The Egyptians had them, and so also other people, crude as they were.

First Presbyterians Defeat Baptists by Batting Rally in the Fifth and Sixth Innings

OSBORNE PITCHES WELL

The First Presbyterians strengthened their hold on first place in the church league Friday by winning from the Baptists by the score of 7 to 4. The game was a pretty interesting affair throughout, and had it not been for a balling rally in the fifth and sixth innings, the tale might have been different to relate. In the fifth the Baptists led by the score of 4 to 1, just as Roosevelt led previous to the Chicago convention. And just like Roosevelt the Baptists were going to win and didn't.

With the score favoring the Baptists the First Presbyterians hopped onto Kearnes with a vim in the fifth. They got four hits. That spelled three runs. "Rube" Osborne plugged up things so the Baptists didn't score at all in the sixth. Then the Presbyterian folks came back, Donahue meantime having come from right field to relieve Kearnes. The Firsts lambasted the ball for two hits and made them count, together with other helps in scoring three more runs. They already had one, so the sum total was seven. Score:

Believes This will "Cure Lung Troubles"

Consumption is a baffling disease—that is one of its chief dangers. Those who have it are rarely willing to acknowledge the fact. If this trouble is present, it is no time for trifling. Don't waste time in argument. If a so-called "cold" has long persisted, if a cough is present that keeps you anxious or any of the symptoms are present such as fever or night sweats, weakness and loss of appetite, and perhaps some raising of mucus—do the sensible thing; take Eckman's Alternative, as Mr. Bettersworth did.

Bowling Green, Ky., R. No. 4.
"Gentlemen: I wish to say for your Alternative that I believe it to be a medicine of unequalled value for all Bronchitis and Lung trouble."

"The Spring of 1908, I had a severe cough for six months. I tried all the medicine that my friends and doctors recommended to me, but no results came for the better. I had night sweats, and would cough and spit up every night until I got so weak I could hardly do anything. But at last, James Deering, of Glenview, Illinois, instructed me in your medicine, which I ordered at once and began taking the same. In one week's time there was quite an improvement in my condition, and after I had taken several bottles I felt as well as ever in my life. I never wrote any firm or company a letter recommending their medicine before, but there are so many fakes that I write personally to any party wanting information in regard to your wonderful medicine." (Signed A. BETTERS WORTH.)

Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in expelling the system. Does not contain poisons, opiates or habit-forming drugs. Ask for booklet of cured cases and write to Eckman Laboratory, Philadelphia, Pa., for more information. (See also leading druggists and

Bad Back Made Strong—Kidney ills Corrected.

All over Charleroi you hear it. Doan's Kidney Pills are keeping up the good work, curing weak kidneys, urinary ills. Charleroi people are telling about it—telling of bad backs made sound again. You can believe the testimony of your own town-people. They tell it for the benefit of you who are suffering. If your back aches, if you feel lame, sore and miserable, if the kidneys act too frequently, or passages are painful, scanty and off color, use Doan's Kidney Pills, the remedy that has helped so many of your friends and neighbors. Follow this Charleroi citizen's advice and give Doan's a chance to do the same for you.

Mrs. Joseph Thompson, 99 Lincoln avenue, Charleroi, Pa., says: "Doan's Kidney Pills, procured at Piper Bros. Drug Store, have been used in our family for kidney complaint with the best of results. I consider this remedy an excellent one and do not hesitate to recommend it."

PUTS KIDNEYS IN FINE SHAPE

W. F. Hennings and Piper Bros. Guarantees Thompson's Barosma For All Kidney, Liver and Bladder Ailments.

If you have Bright's disease, sciatica, rheumatism, lumbago, backache, dropsy, dizziness or palpitation, don't worry. One 50c bottle of Thompson's Barosma will prove to you that it is the best medicine on earth to drive poisonous secretions, including uric acid, from the kidneys.

It's a purely vegetable remedy, is Barosma, and contains no harmful drugs. It's a liquid preparation, assimilates immediately and acts on kidneys at once. As a kidney remedy, its equal has yet to be compounded, while for female ailments and for children unable to control the bladder during sleep, it has a remarkable record of cures. 50c and \$1 a bottle.

Where constipation is present, be sure and also use Thompson's Dandelion and Mandrake Pills. They are the purely vegetable. 25 cents.

Time Signals by Telephone.

A mechanism has been attached to the time-clock at the Harburg observatory by which the exact official time is transmitted to the telephone system of the city. From the fifty-fifth to sixtieth second of each minute the apparatus transmits a musical signal, which is followed by a phonographic announcement of the exact minute. The signals are transmitted by special wire to the headquarters of the telephone system, and thence to each local exchange. Any telephone subscriber who wishes to get the exact time has only to ask for the time connection at his exchange and to listen for the phonographic announcement. This is an improvement upon the American method by which time signals are transmitted by telegraph only once a day.--Youth's Companion.

Wooden Leg Joke.

Why is it, as a writer in the Bellman points out, that the general sense of humor is stirred when anything happens to a man's wooden leg, such as its loss or a knothole coming in it, or getting it under the cars? It is or was the same way with stealing a man's horse in the Far West. Both of these accidents are serious. Yet they are supposed to be subjects for mirth.--Minneapolis Journal.

In Ancient Days.

The chimney corner was a favorite place for early settlers when they took their tobacco. Buckets were the chief reliance of the fire fighters. When an alarm was cried each citizen grabbed his buckets and ran to answer it. If he couldn't respond in an instant he threw his buckets out his window, and his neighbor picked them up and carried them along.

INDUSTRY NOT BOTHERED BY POLITICAL TURMOIL

Conditions Prosperous in Spite of Presidential Year

STEEL TRADE ACTIVE

Vast Improvements Being Made at Braddock, Midland and Monessen

Political turmoil over the country probably will have less effect upon the industrial conditions this year than at any previous presidential election in years. Indications are that instead of disturbed and panicky industrial conditions, the country will experience a period of prosperity better than it has known in the last year. One index of this is in the steel trade, where even vacations are being curtailed in order to keep the mills running to their fullest capacity. Improvements are under way by steel companies that mean not only enlarged operations of a permanent character but the immediate spending of millions of dollars. The work on the Edgar Thomson works of the Carnegie Steel company, at Braddock, now under way, will mean the expenditure of approximately \$8,000,000, while the Midland plant of the Pittsburgh Crucible Steel company is being enlarged by the expenditure of between \$6,000,000 and \$7,000,000.

In the latter instance the improvements will necessitate the building of between 400 and 500 houses for immediate use to provide accommodations for the new employees of this plant. It is intended to make a model industrial city similar to Woodlawn and Gary.

While the improvements are under way at Braddock and Midland, vast improvements are also being made at Monessen by the Pittsburgh Steel company. Two modern blast furnaces are being built together with billet and blooming mills. In these improvements the Pittsburgh Steel company is spending approximately \$5,000,000 and when completed they will give employment, it is estimated to about 2,500 more men.

Mines are running in good shape along the Monongahela valley, and the fact that July was the best month for over a year in river coal shipments alone is evidence of the prosperous conditions. The summer is usually slow in the coal trade but this year it is different. The hardest thing is to get sufficient labor to man the mills and factories. Many foreign laborers took trips abroad at the beginning of spring, and refuse to return until after the presidential election, and as they state, until "things have settled down."

Take Food; Leave Money.

Thieves entered the home of Mrs. Bertchet a widow at Allentown Thursday night. They contented themselves with securing all the food they could and left, without apparently trying to secure any money.

Herman Heupel is in Pittsburgh today on business.

INSPECT GROUNDS OF PLAY

Beaver Delegation Visits Charleroi to See Innovation

RETURN MUCH PLEASED

That the news of the success of Charleroi's playgrounds has carried far was evidenced Friday when a committee of three of the business men of Beaver Falls came here to inspect the playgrounds. In the party were William Boyle Thomas Kirk and a Mr. Reed, who is one of the most prominent bankers and business men of Beaver county.

The committee has been visiting other playgrounds over the country, including those at Pittsburgh. They were much pleased with the conduct of the Charleroi grounds. They were showed about by J. B. Schafer, who is president of the Charleroi Business Men's Association, and one of the leading civic workers and by William Kirk, one of the prominent workers in the playgrounds movement.

AEROPLANE FLIGHTS TO BE BIG FEATURE OF OLD HOME WEEK

Uniontown is to hold an old home week the latter part of August and as one of the chief features will have an aeroplane exhibition. Negotiations have been concluded with the Curtis Exhibition company of New York for flights on three days during the week. Glenn Curtiss left the head of the company which will supply the air craft and send the air men.

Mr. and Mrs. Neri Newcomb have gone to Creighton to visit.

COL. NEWCOMER IS GIVEN PROMOTION

Popular Head of Government Engineers in Pittsburgh District Transferred to the National Capital

Col. H. C. Newcomer, head of the government engineers of the Pittsburgh district has received word of his transfer to Washington, D. C. It is a good transfer for Col. Newcomer.

Col. Newcomer becomes one of the five members of the board of engineers for rivers and harbors and restrains his command of the central department, which includes the Ohio and its tributaries.

He has been in charge of the engineers in the Pittsburgh district for the past five years. During that time

he has not only been a loyal Pittsburgher, doing everything within his power to further the interests of the city. His advice, freely given at all times, has been of invaluable assistance to those who are endeavoring to boost Pittsburgh by improving her waterways and protecting the low-lying sections of the city from water invasion.

Col. Newcomer leaves for Washington within a week or so. His successor will be Lieut. Col. Francis R. Shunk, who has been in charge of the government station at St. Paul, Minn.

STEPHENSON NOW DISTRICT AUDITOR

Charleroi Man Wins Noteworthy Honors in Miners Organization

IS ALSO AN EXAMINER

John Stephenson of Charleroi, who was appointed by the State Department of Mines at Harrisburg as a member of the examining board for mine foremen's and fire boss' certificates of this district, has just been appointed a district auditor by the international board of United Mine Workers. His duties will be to visit the various locals of the district and audit their accounts. Mr. Stephenson is one of the veteran miners of the valley. In 1880 he joined the Knights of Labor at Shire Oaks and has been actively identified with the miners' organization ever since. He has spent 50 years of his life in the mines, and is widely known in the district, where he is deservedly popular among his associates. He is receiving congratulations over his last appointment.

HORSE WILLING TO MISS GOOD FEED JUST TO GET HOME

Apparently willing to miss a good feed in order to get home, a horse, which was being cared for at one of the borough feedgrounds by Misses Anna Bell Carson and Atha Carson, broke away today while the former was getting the halter fastened and with the buggy jolting along behind dashed out the street toward the garbage furnace. Near the garbage furnace the horse was caught. It was returned through the help of a couple of men who gave chase in an automobile. Miss Anna Bell Carson in trying to hold the animal narrowly escaped injury being thrown viciously aside.

CHARLEROI GIRL BECOMES BRIDE OF MONESSEN MAN

Miss Margaret Mallabone, the daughter of Mr. and Mrs. John Mallabone of Fallowfield avenue and Seventh street and Jesse Herbert Miller of Monessen were married on Tuesday of this week at Cumberland, Md. They arrived home on Wednesday and for the present are living at the Grand Hotel, Monessen. They will take up housekeeping shortly at Monessen, where the groom is employed by his father of the firm of Miller and Luca.

NAMED BY ACCLAMATION

The National Prohibition Convention which met in Atlantic City concluded its labors Friday night with the nomination of the party standard bearer of four years ago—Eugene W. Chafin of Arizona for President and Aaron S. Watkins of Ohio for Vice President. In each case the nomination was made by acclamation after a single ballot had indicated the preference of the delegates. Dr. A. Hall of Charleroi and J. E. Van Voorhis of Fallowfield township were delegates from Washington county to the convention.

SOCIALIST LECTURES TO BE FEATURES AT ELDORA PARK SUNDAY

In addition to the natural attractions at Eldora Park tomorrow the Pittsburgh Steel Band of Monessen will give two concerts, one in the afternoon and one in the evening. This is a first-class musical aggregation, and two good musical programs are assured to visitors at the park tomorrow.

In addition to the band concerts there will be Socialistic addresses and lectures every Sunday. Prominent speakers will be secured from time to time and this great economic question will be discussed and debated from every viewpoint during the rest of the season.

BROWNLEE IN CHARGE OF ROADS

County Man Supervisor for State Highway Department

HAS BIG TERRITORY

N. O. Brownlee, of Washington, superintendent of District 14 of the State Highway department, which includes Washington county, has gone over all state roads in his district and has completed all preliminary work incident to the care of the highways. Eight sections of road in Washington county have been taken in charge by the Highway department, making a total of 146 miles. Mr. Brownlee has divided the roadway over which he has charge into sections of about six miles each, placing a competent assistant in charge of each. He has completed his report, which was handed to O. K. Taylor, district superintendent, who in turn forwards the same to the department at Harrisburg.

The roads taken in charge by the highway department in Washington county are as follows:

- 1—Washington via West Middletown to West Virginia state line at Independence.
- 2—Washington via Gettysburg, Florence, to point on Beaver county line.
- 3—From a point on the Washington-Beaver county line near North Star, across Robinson and Hanover townships to West Virginia state line.
- 4—From Washington via Hill church, Canonsburg and Morgantown, following the old Pittsburgh pike to Allegheny county line.
- 5—Washington via Williamsport pike to Monongahela.
- 6—From a point on the Williamsport pike near the Davis farm, east of Washington, via Zediker, etc., to Charleroi.

Playgrounds Event Arranged for Fourth to Be Carried Out

AN "OLD HOME DAY"

Former Borough Officials and Civic Workers Tendered Special invitations

Arrangements are being made for a celebration at the playgrounds on Thursday, July 15, to make the place of the Fourth of July celebration that was spoiled by rain.

The celebration will be in the nature of an observance of the Twentieth anniversary of the incorporation of Charleroi borough.

All the events of the celebration will take place at the playgrounds in "The Pines." Primarily it will be a lawn fete, and from the elaborate preparations being made it will be a good one. A committee of women will serve refreshments. The celebration will last from 6 until 11 o'clock in the evening.

The Charleroi Concert band, reorganized, and amplified for the occasion will give a band concert from 6:30 until 8 o'clock. Following the concert there will be speaking to take place at the speaker's stand. O. Frye will be chairman of the meeting.

Speakers will be the same as that to have spoken on the Fourth of July. The day will be in the nature of an Old Home Day, and former borough, school and civic officials and former citizens have been tendered a special invitation to be present. The speakers programmed are: J. J. Holt, on behalf of the burgesses; Robert J. Whitehead, on behalf of school directors; Dr. J. W. Manon, on behalf of the fire department; J. D. Barryman on behalf of the playgrounds auxiliary; Jesse K. Johnston on behalf of council; Dr. Edwin McKay on behalf of the Board of Health; W. C. Clark of the Business Men's Association. Rev. B. N. Asmacher; Rev. J. T. Hackett and Rev. J. E. Charles will make addresses.

WHY THE SUMMER COAT?

Why is a man's coat, in summer
time? asks the Birmingham News.
Unless he has more than he can car-
ry in his trousers' pockets, it is of ab-
solutely no service to him save in the
observance of a custom, or con-
ventionality. If it were but custo-
mary to go without coats in summer,
a man's costume would be absolutely
complete when he appeared in shirt,
trousers and shoes. As it is, however,
he dare not go into a first-class hos-
tel and attempt to sit at a dinner
table in that condition. And this is
well enough so long as coats are a
part of a man's attire.

The argument herein, however, is
to do away with them in the summer
months. Why is that not possible by
concerted action? Does woman ask
man if she may poke her shirtwaist
full of large holes?

A man's coat is a conventionality.
In winter it may be a necessity, as is
an overcoat and other apparel, but
when the summer sunbeams are re-
sounding a proud stiff collar that it
may yet be a dish-rag one of these
days, a coat is a burden to male hap-
piness. The shirtwaist campaign
has been started before and did not
get very far advanced. But why call
it a shirtwaist campaign. If a spade
should remain a spade under any and
all conditions, then a shirt should
remain a shirt for the same reason.

The character or kind of shirt, is a
smaller matter, relatively speaking—
the principal, crying need is the
elimination of the coat in summer
time.

The average man is dressed as
warmly in July as the average wo-
man is in the coldest winter month.
No man chooses to wear a coat. His
shirt may compel him to do so today,
but if the coat costume were abol-
ished he would take care of the shirt
feature on all occasions.

THE ROAD CARETAKER.

The organization of the State
Highway Department by Commis-
sioner E. G. Egan, the office of care-
taker has been created for each reg-
ular session of the State Highway
Board. It is to be approved and have
been taken over by the State. Presumably
the caretaker will have no section of
the highway, in the same manner as
the section man of the railroads.
The caretaker will be the highway, performing
minor repairs as may be vital at
times, and promptly reporting con-
ditions that are beyond his scope to
the State.

and will be the means of saving thou-
sands of dollars annually if the care-
takers perform their duty, as it is
assumed they will. Had this been
done on the ordinary State highway,
roads thousands of dollars could
have been saved the local taxpayers
annually, besides preserving the
roads by not permitting them to be
destroyed each season. A man with
a hoe patrolling the hill roads in the
spring and fall could divert the
streams of water which start courses
down the center of roads and soon
wash them out entirely, open up
drains and perform service of in-
estimable value to the roads. Stones
and other obstructions could be re-
moved by the caretaker who could
also fill up minor depressions and
earn his pay many times over in the
public service he might perform.

The caretaker for the road is one
of the solutions of good roads. It
has been the lack of the caretaker
which has given this country the
worst roads of any civilized country
in the world.

PICKED UP IN PASSING

"Lancaster is a good city," said I.
P. Hepler, a former Charleroi real
estate man who is now engaged in
the same business in the eastern city
mentioned. "It is the type of a com-
munity that is most prosperous from
the fact that it does not depend upon
any single industry. Surrounded by
a rich and prosperous farming coun-
try, it has hundreds of small indus-
tries employing from half a dozen
working people to several hundred.
Some of these may be closed during
the year, but you never hear about it.
The most of them are running, how-
ever, all the year around, and labor
is always pretty fully employed.

"One of the peculiarities about the
city is that the hundreds of small in-
dustries that make the city prosper-
ous are right in the heart of the town
and not on the outskirts like a steel
plant or a glass factory. Right in
the middle of abusiness block you'll
find perhaps a four or six story mod-
ern building which is nothing but an
umbrella factory, and in the resi-
dence district the small concerns
scattered about just the same.
"The tobacco business is a great
industry in Lancaster. Thousands of
men, women, boys and girls are em-
ployed in preparing tobacco for man-
ufacture, and in making cigars and
other products. An enormous amount
of tobacco is raised in that commu-

OVER THE COUNTY

Arthur Guttery, general secretary
of the Washington Y. M. C. A., will
give a special talk to boys from 14
to 20 years old in a large assembly
tent at Tylersdale this evening at 8
o'clock. The talk will be illustrated
by two reels of motion pictures. This
entertainment is designed to be in-
structive as well as entertaining.

Band Members to Camp.
Fifteen s members of Dever
Greater Washington Band will leave
Washington Monday for Hackney
Station, on the Waynesburg and
Washington railroad, where they will
camp out for a couple of weeks. The
camp will be under the supervision
of J. H. Dever, director of the band.

Wants Location Changed.
An amendment to the ordinance
or franchise granted the Westside
Electric Company some time ago by
the Bentleyville council has passed
first and second reading. The amend-
ment provided for the changing of
location of the crossing over Main
street in Bentleyville near the White
mill to 150 feet westward.

Found Name Plate on Turtle.
Arthur Kinder, who is employed
on the S. H. Hazlett farm at Brad-
dock station, along the W. & W.
railroad, found a turtle which meas-
ured five inches across the shell. A
copper plate was riveted on the shell
bearing the following name and date.
"J. Wyland, July 1, 1902." There is
no one by this name living at Brad-
dock at the present time. The turtle

ity, and tons and tons of it is ship-
ped in from other states to be cured
and manufactured. Farming is
good, but I consider the farmers a
trifle behind in methods. They have
lots of money and are prosperous,
but taking them as a whole they are
not realizing out of their farms what
they should.

I was engaged in farming near
the city suburbs for awhile, but I
had a chance to sell and clean up \$4,
and on my investment, and I sold out
and went into the real estate business
in the city."

"I don't see why boys need to be
so bashful," said a 17-year-old miss,
who lives on one of the residence
streets of Charleroi, speaking con-
fidentially to a friend the other day.
"Now I know anice boy about my
own age, who lives a few doors from
us, whose company I'd very much
like to enjoy at times, but he's so re-
tiring that all he'll do is to speak to
me when we meet. Now I'm not in
love with him, and I don't want him
to be in love with me, but as I have
no brothers or sisters, and he has
none either, I can't see why we
couldn't be neighbors, and enjoy one
another's society. I know he is a
nice boy and I don't think that I'm
wholly unattractive. I sit alone
evening after evening in our porch
swing, and often see him sitting
alone on his porch, but he's just too
bashful to be friendly.

"No, I'm not looking for a beau, as
you call it. There's lots of older fel-
lows who'd come around all right if
I'd let them, but I just want a boy
friend I can meet and talk to as I
would a brother. If boys would only
be natural and not try to be smart
like the older ones, I'd like them a
whole lot better."

LOCAL MENTION

Mr. and Mrs. H.C. Fuller will leave

HOLD ON THE LEAD

GOOD GAMES
IN PROSPECT
NEXT WEEK

The first and second position teams
in the Charleroi Church league
standing, and the two teams that
seem to be playing the best ball will
get together on Monday under regu-
lar schedule. These teams will be
the First Presbyterians and the Cath-
olics. The chances are that Patrick
will pitch for the Catholics. Osborne
who has done much towards holding
the heads of the Presbyterians above
sea level this season will be on the
mound opposing Patrick if the dope
holds.

Tuesday the Episcopal and Metho-
dists will have a set-to and on Wed-
nesday the Lutherans and Episco-
pals will try conclusions. The Wash-
ington Avenue Presbyterians and
Baptists are scheduled for Thursday
night, and on Friday night the Luth-
erans and Christians are to play.
There should be some good games in
the Church League this week, but un-
doubtedly the featuring attraction
will be that of Monday night.

A. M. E. PEOPLE
TO HOLD A UNION
PICNIC AT EIDORA

Arrangements are being made by
A. M. E. Sunday Schools of the Mon-
ongahela valley for their second an-
nual Sunday school picnic to be held
at Eidora Park on Friday, July 26.
Sunday schools that will be included
in the affair will be Charleroi,
Brownsville, Belle Vernon, Pleasant
Green, Monessen, Donora, Mononga-
heia, Elizabeth, West Elizabeth and
Clairton. Bands will be present to
furnish music for the occasion. Two
addresses will be made, one by Rev.
H. H. Butler, D. D. of Washington,
and another by Rev. P. A. Scott, D. D.
of Pittsburgh.

SURPRISE PARTY
FOR YOUNG COUPLE

A surprise party was tendered Mr.
and Mrs. H. J. Gehring of 610 Fifth
street by the Fancy Work Club of
Christ Lutheran church in honor of
their first wedding anniversary. An
enjoyable feast was served and
numerous games indulged in. Those
present were Mrs. J. E. Johnston,
Mr. and Mrs. Albert Huepel, Mrs. D.
F. Worthington, Mrs. Edward Skultz,
Mrs. R. O. Vetter, Misses Rosa Vet-
ter, Edna Acker, Ruth Heupel, Ber-
tha Anthony, Agnes Allen. The out-
of-town guests were: Mrs. Small of
Harrisburg and Mrs. Glancy of
Roscoe.

SIGNIFICANCE OF SOUTH POLE

Science Will Welcome the Discovery
So Long Looked For-
ward To.

At least three branches of science,
it is hoped, will derive important ben-
efits from the conquest of the south pole
—meteorology, geography, and seismo-
graphy. More immediately important
than any other result is to be
it is probable, the influence of
the discovery on meteorology.
In no long time, as a conse-
quence of the weather maps based on
the fuller knowledge of atmospheric
currents in the Antarctic, doubtless
brought by Scott and Amundsen, the
prediction of the weather will be made
a much more exact science. One of
the results hoped for is the forecast-
ing of the conditions of the mon-
soons in India and averting thereby
a vast amount of damage to property
and loss of life.

To work out the many observations
pertaining not only to meteorology
but to the other sciences and to report
on the collections in detail must, as a
writer in the London Times points out,
be the work of years. It is already
possible, however, to conjecture from
the mass of expert information pub-
lished here and abroad regarding
Amundsen as well as Scott what are
the outlines of a great section of the
globe of which only the fringe has
heretofore been touched by the ex-
plorer.—Current Literature.

Fire Engines Long Known.
It isn't worth while inquiring into
the origin of the first engine built for
a fire extinguisher. There were de-
vices for this purpose before the
Americas were heard of. The Egyp-
tians had them, and so also other peo-
ples, crude as they were.

First Presbyterians Defeat
Baptists by Batting Rally
in the Fifth and Sixth In-
nings

OSBORNE PITCHES WELL

The First Presbyterians strength-
ened their hold on first place in the
church league Friday by winning
from the Baptists by the score of 7
to 4. The game was a pretty inter-
esting affair throughout, and had it
not been for a bailing rally in the
fifth and sixth innings, the tale might
have been different to relate. In the
fifth the Baptists led by the score of
4 to 1. But at that point previous
to the Chicago convention. And just
like Roosevelt the Baptists were go-
ing to win and didn't.

With the score favoring the Bap-
tists the First Presbyterians hopped
onto Kearnes with a vim in the fifth.
They got four hits. That spelled
three runs. "Rube" Osborne plugged
up things so the Baptists didn't score
at all in the sixth. Then the Pres-
byterian folks came back, Donahue
meantime having come from right
field to relieve Kearnes. The Firsts
lambasted the ball for two hits and
made them count, together with other
helps in scoring three more runs.
They already had one, so the sum
total was seven. Score:

Time Signals by Telephone.
A mechanism has been attached to the time-clock at the Hamburg observatory by which the exact official time is transmitted to the telephone system of the city. From the fifty-fifth to sixtieth second of each minute the apparatus transmits a musical signal, which is followed by a phonographic announcement of the exact minute. The signals are transmitted by special wire to the headquarters of the telephone system, and thence to each local exchange. Any telephone subscriber who wishes to get the exact time has only to ask for the time connection at his exchange and to listen for the phonographic announcement. This is an improvement upon the American method by which time signals are transmitted by telegraph only once a day.—Youth's Companion.

Wooden Leg Joke.
Why is it, as a writer in the Bellman points out, that the general sense of humor is stirred when anything happens to a man's wooden leg, such as its loss or a knothole coming in it, or getting it under the cars? It is or was the same way with stealing a man's horse in the Far West. Both of these accidents are serious. Yet they are supposed to be subjects for mirth.—Minneapolis Journal.

In Ancient Days.
The chimney corner was a favorite place for early settlers when they took their tobacco. Buckets were the chief reliance of the fire fighters. When an alarm was fired each citizen grabbed his buckets and ran to answer it. If he couldn't respond in an instant he threw his buckets out his window, and his neighbor picked them up and carried them along.
